

MOISTURE-MAT

WATER RETENTION MAT

DESCRIPTION

The Moisture-Mat is a 16 ounce per square yard, needle-punched polypropylene fabric. It is non-biodegradable and resistant to mildew, insects and common soil chemicals for long lasting performance.

TYPICAL USE

Moisture-Mat is used exclusively as a component of the Carlisle's Roof Top Planting System. It is installed between the Root-Barrier and the CCW MiraDRAIN drainage composite, where it adds water-retaining volume to the system. During system installation, Moisture-Mat may be held in place with 3" wide Carlisle SecureTape™ or construction adhesives.

PACKAGING

Moisture-Mat is supplied in rolls of 15 feet (4.6 m) width by 300 feet (91 m) long, roll area 4500 square feet (418 square meters). The weight of each roll is approximately 500 lbs (227 kg).

STORAGE

Store so as to prevent damage to the roll. Keep dry prior to installation to avoid excessive weight gain. Avoid prolonged exposure to direct sunlight. Store away from open flames or welding areas.

LIMITED WARRANTY

CARLISLE COATINGS & WATERPROOFING INCORPORATED (CARLISLE) warrants this product to be free of defects in workmanship and materials only at the time of shipment from our factory. If any CARLISLE materials prove to contain manufacturing defects that substantially effect their performance, CARLISLE will, at its option, replace the materials or refund its purchase price.

This limited warranty is the only warranty extended by CARLISLE with respect to its materials. There are no other warranties, including the implied warranties of merchantability and fitness for a particular purpose. CARLISLE specifically disclaims liability for any incidental, consequential, or other damages, including but not limited to, loss of profits or damages to a structure or its contents, arising under any theory of law whatsoever.

The dollar value of CARLISLE's liability and buyer's remedy under this limited warranty shall not exceed the purchase price of the CARLISLE material in question.
